

Rutgers University and Langan Engineering partner to deliver webinars on urban planning.

Rutgers University's Bloustein Online Continuing Education Program, in partnership with Langan Engineering & Environmental Services, is offering a series of webinars between July and December for urban planners. The webinars – called Learning Labs – will cover topics such as environmental planning, traffic management, cultural resources and landscape design.

Every one-hour session will be taught by experienced practitioners from Langan Engineering. All sessions have been submitted for 1 AICP Certification Maintenance credit each. The sessions are from 12 to 1 pm eastern time. Registrants can participate from any computer with an Internet connection. Learning Labs are convenient, affordable and interactive ways to learn. All registrants will have the opportunity to call in and ask questions or offer comments. Each Learning Lab costs \$20.

Upcoming Bloustein Online Continuing Education (BOCEP)/Langan Learning Labs:

- July 7: Environmentally Conscious Site Development: Looking at Ecological Risk and Natural Resources. Instructors: Karianne Czajkowski and Linda Kenney
- August 4: Traffic Planning and Engineering: Essentials for Planners. Instructor: Greg DelRio
- September 15: Environmental Land Use Permitting: Its Role in Site Planning, Development and Design. Instructor: Dave Charette
- October 6: Landscape Design: Value, Challenges, and Sustainable Solutions. Instructor: Michael Szura
- November 10: Cultural Resources: What Are They and How Do They Impact the Planning Process? Instructor: Michael Audin
- December 1: Understanding Environmental Contamination Conditions as Part of the Planning Process Instructor: Jeff Smith

To learn more or to register for any of these Learning Labs, please visit <http://www.policy.rutgers.edu/bocep>. Then click on "Course catalog" and follow the links to the course descriptions.

BOCEP is produced by Rutgers University's Edward J. Bloustein School of Planning and Public Policy. It is one of the top centers of urban planning education in the United States. Langan is an international engineering, environmental and planning firm headquartered in Elmwood Park, NJ. It has 16 offices around the United States, including three in New York and New Jersey.
